

Sivaco Quebec
800 Rue Ouellette
Marieville, Quebec
J3M 1P5

September 18, 2017

SUBJECT: European Reach Regulations

The Reach program has listed several new substances of very high concern. These are either carcinogenic, mutagenic, toxic for reproduction or bioaccumulative. The list of these substances carry the nomenclature SVCH, and the new ones to be added in June 2015 are listed below.

Sivaco Quebec controls all materials being used in the plant with SIMDUT software. All galvanized and bright steel products being produced do not contain any of the SVCH substances that are on their list updated July 12, 2017.

In addition we have pre-registered our products with the REACH program and have obtained the following pre-registration numbers.

	Submission#	Reference#
Iron	KR469568-99	05-2117084995-24-0000
Manganese	GK457603-35	05-2116943575-36-0000
Silicon	JU457756-99	05-2116944455-39-0000
Zinc	AY457800-15	05-2116944717-33-0000
Carbon	AF457673-44	05-2116944069-38-0000

A handwritten signature in black ink, appearing to read "C. Bonilla", is written over a light blue horizontal line.
